MEMORANDUM FOR: Chief, Military-Economics Division, ORR

ATTENTION: [REDACTED]

25X1

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Leningrad ABM Complex

REFERENCE: (a) Requirement C-RR-3-80,658  
(b) CIA/PID Project C 1396-63

1. This memorandum is in response to your requirement dated 4 October 1963 requesting an updating of the probable ABM facilities at Leningrad, USSR based on KEYHOLE [REDACTED]

25X1

2. Mensural data provided by TID/NPIC on the best quality photography available revealed the structures on top of the cylindrical flanking structures in the electronics areas at the southwest and northwest complexes to be 30 feet high and 30 feet in diameter. This measurement should be considered approximate.

No new objects or structures were discerned at the three ABM complexes. First photographic evidence of the demarcations from the curved buildings was noted on [REDACTED]. It cannot be determined whether their observability is related to the photography or their actual appearance due to the resolution problems involved in seeing images of [REDACTED]. demarcations appear to be present by [REDACTED]

25X1

25X1  
25X1

The facility to the right and forward of the control building of the probable electronics facility appears to have been mounded over at the southwest complex. This would suggest its completion. The control building at the northwest site does not appear to have changed since [REDACTED]

25X1

The status of construction at the northeast site appears to be of an early nature. However, it appears that construction has not advanced to any significant degree since [REDACTED]
